

Photonics Industries' RGLX Series picosecond lasers offer low pulse widths (< 25 ps), high pulse energies (up to 4 mJ), and high repetition rates (up to 5 kHz). With no separate utility module, the all-in-one (AIO) RGLX Series is a pioneering laser for research, especially fulfilling new and emerging requirements in laser ranging (SLR), and also offers industrial sectors the pulse energy, repetition rate, and convenient AIO package for integration into systems for efficient microprocessing and meso-processing.

Applications

Systems

•

٠

•

Split beams, flat-top beam profiles, and other customer-integrated beam splitting/shaping methods retain high mJ pulse energies for optimal micro- and meso-processing

Specifications - RGLX Series High Pulse Energy Picosecond Lasers, IR & GRN Models

	RGLX-1064-2	RGLX-1064-4	RGLX-532-1.5	RGLX-532-2.5
Beam and output specifications				
Wavelength	1064 nm		532 nm	
Average power	2 W at 1 kHz	4 W at 1 kHz	1.5 W at 1 kHz	2.5 W at 1 kHz
Maximum pulse energy	2 mJ at 1 kHz	4 mJ at 1 kHz	1.5 mJ at 1 kHz	2.5 mJ at 1 kHz
Pulse width ¹	~30 ps			
Pulse repetition rate ²	Single shot to 5 kHz			
Pulse-to-pulse stability	< 2% rms			
Long term power stability, 8h ± 1°C	< ±2%			
Beam spatial mode	$TEM_{00} M^2 < 1.3$			
Beam pointing stability	< 50 µrad			
Beam output diameter, at exit	1.7 mm, nominal			
Beam ellipticity	< 10%			
Operational specifications and system characteristics				
Interface	RS232, Ethernet, Software GUI, External TTL Triggering			
Electrical requirement	100-240 V AC; or 32 V DC, 15 A			
Line frequency	50-60 Hz			
Climate	Ambient 15°C to 30°C (59°F to 86°F) Operating Range, Relative Humidity 90% Max., non-condensing			
Power consumption	< 400 W, excluding chiller			
Dimensions (LxWxH)	24 x 8.5 x 3.75 in			
Weight	~55 lbs			
Cooling system ³	Closed-loop chiller			

1. Shorter pulse width available on request

Shored pulse when available on request
Lower repetition rates, down to single shot, achieved by external triggering (EXT PRF)
Air-cooled option is available (RGLX-AC). Please contact us for more details.

Main Headquarters: 1800 Ocean Ave, Ronkonkoma, New York 11779, United States

Photonics Industries International is the pioneer of intracavity harmonic lasers and is at the forefront of developing, manufacturing and marketing a wide range of nanosecond, sub-nanosecond, picosecond and femtosecond lasers for industrial, scientific, defense, and medical industries. Check out our products and see how we can help you <u>apply</u> our lasers to your needs.
